"The Perceptions of Pregnant Mothers Regarding the Provision of Exclusive Breastfeeding with the Motivation to Perform Early Breastfeeding Initiation (EBI) at Hayati Clinic Medan 2022"

The study focused on investigating the perceptions of pregnant mothers regarding exclusive breastfeeding and their motivation to perform early breastfeeding initiation (EBI) at Hayati Clinic in Medan. The researchers aimed to determine the relationship between these perceptions and motivations. The study utilized a cross-sectional analytical survey design, with data collected through questionnaires distributed to 44 pregnant mothers at Hayati Clinic.
